Yes, please keep us posted. In the past, ARC's contractor (Britt); and Waterboard (Doug) have had vehicles. And our EPA contractor could bring an SUV as well. The thing we want to try to

do is keep the conversation going in one direction with one group, and it gets tough to do that with more than a vehicle or two.

Lynda –

Just a heads up on additional tour attendees:

RJ (superintendent) and Montana (natural resources) from the Western Nevada BIA office have requested to join the tour. We will also be extending the invitation to all Council Members during this week's council meeting, although the tour time may conflict with many of their work hours. Staff from the Alpine Watershed Group (Sarah Green) have also requested to join us. If we have room in the tribal van we were planning to take, I tentatively told them we could include them.

I will confirm total numbers of participants and transportation with you early next week.

Hi Tony, Thanks for the call back!

- My understanding from our call, is that the slump isn't interfering with operation of the HDS start up this week; and the requested start up tour for the chairman on the 18th is a go!

Attendees from Tribe: Chairman Mortimer, Jane Long, Michelle Hochrein, maybe a couple others

EPA: Myself and Josh;

ARC: Understand you can't make it. please confirm Brian Johnson still has it on calendar? Britt to attend.

Waterboard: I've asked Doug to make himself available if/as needed

- Thanks for following up on the fish and plant data results from sampling completed last October; or six months ago.

Please know if your team is behind schedule on the validated; please provide and label the results as qualitative/preliminary.

Best Regards,

Lynda Deschambault

Hi Tony,

I left you a message at 2pm today. Sorry I missed you.

I would like to get back to the Chairman of the Washoe Tribe of Nevada and California ---on his request for :

- a tour on May 18th, and
- the requested fish and plant data?

Lynda

I've forwarded as requested.

I don't imagine that this changes

- a. The site tour he has requested for May 18th? (they confirmed the 18th is better than the 19th)
- b. The Tribe's recent request for the Fish and Plant data that was collected last year? (see yesterday's email)
